

Microsoft 365

The ideal collaboration and communication solution

Microsoft 365 is the ideal solution for efficient and simple workflow – whether in the office or home office, in a team or alone. Use Word, Excel, SharePoint and MS Teams and benefit from the advantages of online applications and services.

Your benefits at a glance

hosted in Europe

Secure in the cloud – hosted in European data centers based on European data protection regulations.

Extensive range of MS applications

The many different Microsoft applications and services allow you to work efficiently.

Flexibility and scalability

You can book or cancel licenses for your employees on a daily basis.

Efficient communication

The versatile functions enable efficient and effective cooperation and communication within teams.

Independence of end devices

Microsoft 365 is independent of the end device – PC, laptop, tablet or smartphone.

Cost reduction

Reduce travel expenses with virtual collaboration across multiple locations. Reduces meeting costs through extensive conference options.

The reasons to opt for toplink:

- ✓ Minimum contract duration of just 1 day
- ✓ You only pay for the licenses you use
- ✓ No monthly service or maintenance costs
- ✓ Can be used from anywhere and with any end device
- ✓ Hosting in a European data center
- ✓ Suitable SIP Trunk for Teams available
- ✓ Integrated protection against fee misuse
- ✓ Secure encryption through TLS and SRTP
