

# SIP Business International

SIP Business International allows you to quickly and easily connect your international locations to your headquarters.

## Your benefits at a glance

**International telephone numbers**

You will receive telephone numbers for your telephone connection from the respective country.

**Encrypted telephony**

You can encrypt your voice connection with TLS/SRTP and make secure calls.

**Internal telephony free of charge**

With SIP Business International, you can call colleagues abroad internally at no cost.

**Emergency call function**

The emergency call function is supported in most countries.

**Flexibility and scalability**

Depending on your requirements, you can book SIP Business International with flexible functions and scalability.

**Protection from misuse of fees**

We monitor your IP telephone connection for possible misuse.

## The reason to opt for toplink:

- ✓ connect Test: Good „top performance in all disciplines!“
- ✓ Integrated protection against fee misuse
- ✓ No system crashes or compatibility problems as there is only one provider
- ✓ All services are hosted in Germany
- ✓ Secure encryption through TLS and SRTP

**We would be happy to advise you**
