

toplink UC One – Cloud communication and collaboration

With UC One, you can access your communication and important information from anywhere – whether laptop, smartphone or tablet. This allows you to increase your productivity and that of your colleagues and complete more tasks in less time – everything from one single application.

Your benefits at a glance

| | | |
|--|--|---|
|  <p>Workflow optimization</p> <p>Access relevant information and documents from anywhere – all directly from one single application.</p> |  <p>Faster responses</p> <p>No need to jump back and forth between different applications. This allows you to respond faster to certain situations.</p> |  <p>Use on any device</p> <p>Whether on the desktop, tablet or smartphone – you can use UC One on any device from anywhere.</p> |
|  <p>Conferences at a single click</p> <p>You have your own personal MyRoom conference call room. With just one click, you can easily open or participate in telephone conferences.</p> |  <p>Integration of other applications</p> <p>By integrating the hub, you can include information from other applications. These are then displayed according to the context.</p> |  <p>Easy collaboration</p> <p>UC One is more than a simple telephone system. UC One also provides desktop sharing and file sharing.</p> |

The reason to opt for toplink:

- ✓ All services are hosted in Germany
- ✓ toplink products are integrated seamlessly into one another
- ✓ Available everywhere from the cloud
- ✓ Flexible and fast responses to customer needs
- ✓ toplink develops, implements and operates
