

Skype for Business

Our successful product from the cloud for German SMEs

Skype for Business is the perfect solution for audio and video conferencing, desktop sharing, online meetings, webinars and chats – right from your desk, even if your team is spread all over the world.

Your benefits at a glance

Hosted in Germany

Secure in the cloud in the German data center according to German data protection regulations.

Integration in Microsoft-Applications

Efficient work is possible thanks to the extensive and seamless Microsoft integration.

Flexibility and scalability

You can book or cancel licenses for your employees on a monthly basis.

Efficient communication

The versatile functions enable efficient and effective collaboration and communication within teams.

Independence of end device

Skype for Business is device independent, irrespective of whether you are using a PC, Mac, iPhone, Android or Windows phone.

Cost savings

Reduce travel expenses with virtual collaboration across multiple locations. Reduce meeting costs through extensive conference options.

The reason to opt for toplink:

- ✓ Minimum contract duration only 1 month
- ✓ You only pay for the licenses you use
- ✓ No service or maintenance costs
- ✓ Hosting in a German data center
- ✓ The first provider in Germany with Microsoft certified SIP Trunk
- ✓ Integrated protection against fee misuse
- ✓ Secure encryption through TLS and SRTP
- ✓ Crediting of existing Microsoft licenses possible

We would be happy to advise you
