

The SIP Business International connection from toplink

Thanks to the SIP Business International connection, your international locations are quickly and easily connected to your headquarters.

Why toplink?

- Process optimization since everything comes from a single source
- High security: all services are hosted in Germany redundantly
- monitor your IP telephone connection to avoid possible misuse – worldwide!
- Secure encryption via TLS and SRTP
- Best voice quality, very high availability, no system crashes or compatibility problems
- Emergency call function is supported in most countries
