

The SIP Business for Teams connection from toplink

The IP phone connection enables location-independent working, and Microsoft Teams adds features like chat, meetings, notes and more through integration in Microsoft 365 Business Suites.

Why toplink?

- Process optimization, as everything from a single source
- High security: all services are hosted in Germany redundantly
- International phone numbers available in over 60 countries, with new and/or ported numbers
- Free international telephony in the toplink network plus low-priced flatrates
- Integration of vPBX (virtual PBX) possible
- Emergency call function is supported in most countries
